## HOSPITAL FUND HAS REACHED \$28,389, AND CONTINUES TO GROW

**Committees Thursday Noon Report Raising of 5,791 for the Second Day's Work**

### MR. EVERETT REMOVES ALL CONDITIONS

**Four Five Hundred Dollar Subscriptions Received This Morning—Solicitors at Noon Luncheon Today Were Enthusiastic and Each Committee Strives to Outdo the Other.**

A cablegram from Mr. Edward H. Everett who is in Switzerland, in response to one sent by Mr. J. P. Irwin was received this afternoon. Mr. Everett replied that he would remove all conditions from his offer and would give the hospital site and \$10,000 if the citizens of Newark raised \$50,000.

In campaigns similar to this it frequently happens that donors wish to give subscriptions in memory of some relative or friend whose interest in the institution and the welfare of the community was very marked during their lifetime.

The committee meeting this noon at Assembly Hall went far ahead of any gathering of the campaign in point of enthusiasm and interest. Almost a full membership reported and the speakers of the day were listened to with close attention, and their remarks greeted with rounds of applause.

The subscriptions raised since the report of Wednesday noon amounted to \$5,791, and as a worthy record to succeed that of yesterday, the team headed by C. C. Metz took the pennant when it announced the total of its day's work as \$1555.

One of the most powerful agents in producing the enthusiasm of the day was the presence at the meeting of a committee composed of members of the Iron Molders' Union, No. 152. These men brought to the meeting assurance of the hearty interest and support of their organization, a message which was greeted with tumultuous applause.

Chairman A. H. Heisey was present and brought the meeting a splendid message of hope and confidence. As chairman of the organization Mr. Heisey has instilled in the hearts of the workers a wonderful spirit of confidence in their final success, and in the support of the citizens of Newark.

After a number of short and timely talks the meeting adjourned to the square where Captain Heisey moved the hand to the point opposite the amount \$28,000.

The opening of the second day of the Hospital Fund campaign found every committee on the job bright and early and at intervals they were seen coming in to the headquarters for a few moments wearing smiles which indicated that one or two more good subscriptions had been landed.

Mr. Honey, the director, was in high good humor and said that from his observation of the work of the men he

time. One of the many pleasing offers made in the campaign and one which shows something of the universal interest and approval of the movement was that made by Dr. H. H. Davis at the luncheon Wednesday noon. Through Mr. Honey he announced that he would contribute to the fund the entire amount of his fees received from pay patients at the hospital for a period of three months. This unusual and attractive offer may be the means of suggesting to other men in other callings a way to help in the cause.

That the noon luncheons will be a potent factor in the campaign may be realized by the spirit of good fellowship, friendly rivalry, and enthusiasm that is evident among the workers. At these gatherings disappointments are forgotten, knocks are laughed at, and achievements are cheered. The spirit is a subtle mixture of real determination and confident assurance.

Mr. C. C. Metz, whose team won the pennant for Wednesday expressed the conviction that the team that took it away "would have to step some."

One of the chairmen was overheard making the following statement: "Some of the big fellows have come in royally, and have broken the ice in splendid style, but just watch that clock go when the bone and sinew of the city—the wage earners, to whom the hospital means the most, bring in their one, two, five and ten dollar subscriptions."

The magnificent start of Wednesday did not beget over-confidence among the workers, but set them to talking of the possibilities of completing the fund in even less than the short time planned upon.

The splendid organization of business men under the direction of Mr. Honey even so early in the game as Wednesday noon was working like a fine and delicately adjusted machine; every man seemed to know what he was doing, why he was doing it—and how he did it.

The short talk of the Rev. J. A. Bennett on Wednesday noon made a profound impression on his hearers. Mr. Bennett defined the present work, not as charity, benevolence, or philanthropy, but as "usefulness" or perhaps "service."

Mr. I. M. Phillips, one of the chairmen, was heard to make the statement that while he had anticipated being called upon to contribute his hat. Mr. Phillips threw his "hat in the ring" Tuesday night and as yet he has not been able to find it. He states that to a chairman who has been appointed to "pass the hat" the loss of the chapeau is a real misfortune.

## IMPEACHMENT PROPOSAL IS PASSED TODAY

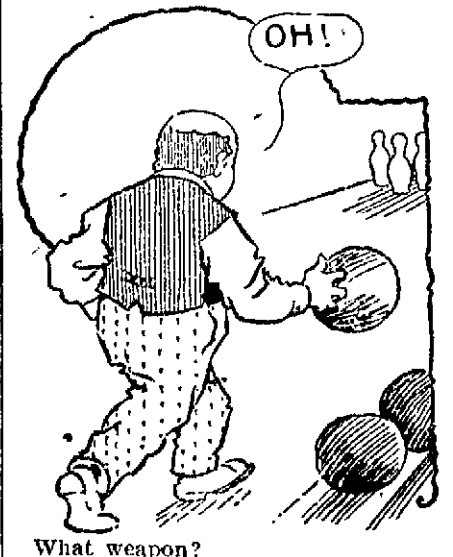

Columbus, April 25.—The constitutional convention prepared to rush its hearings to an early close today. The session moved up from 10 a. m. to 9 a. m. and with twenty minutes had passed Delegate Dwyer's impeachment proposal by an almost unanimous vote. The proposal gives the legislature power to pass laws to remove any offending public officer, state county, or city. These laws will be an addition to the present laws providing impeachment by the legislature.

## LOCAL OPTION FIGHT WAGING AT SPRINGFIELD

Springfield, April 25.—Probably the greatest fight on the local option question in the history of Ohio is being waged here at the ballot box. Springfield being the largest dry city in the state the liquor men and brewing interests are making a strenuous effort to win it back into the wet column. Before the polls opened both sides declared they had won the victory.

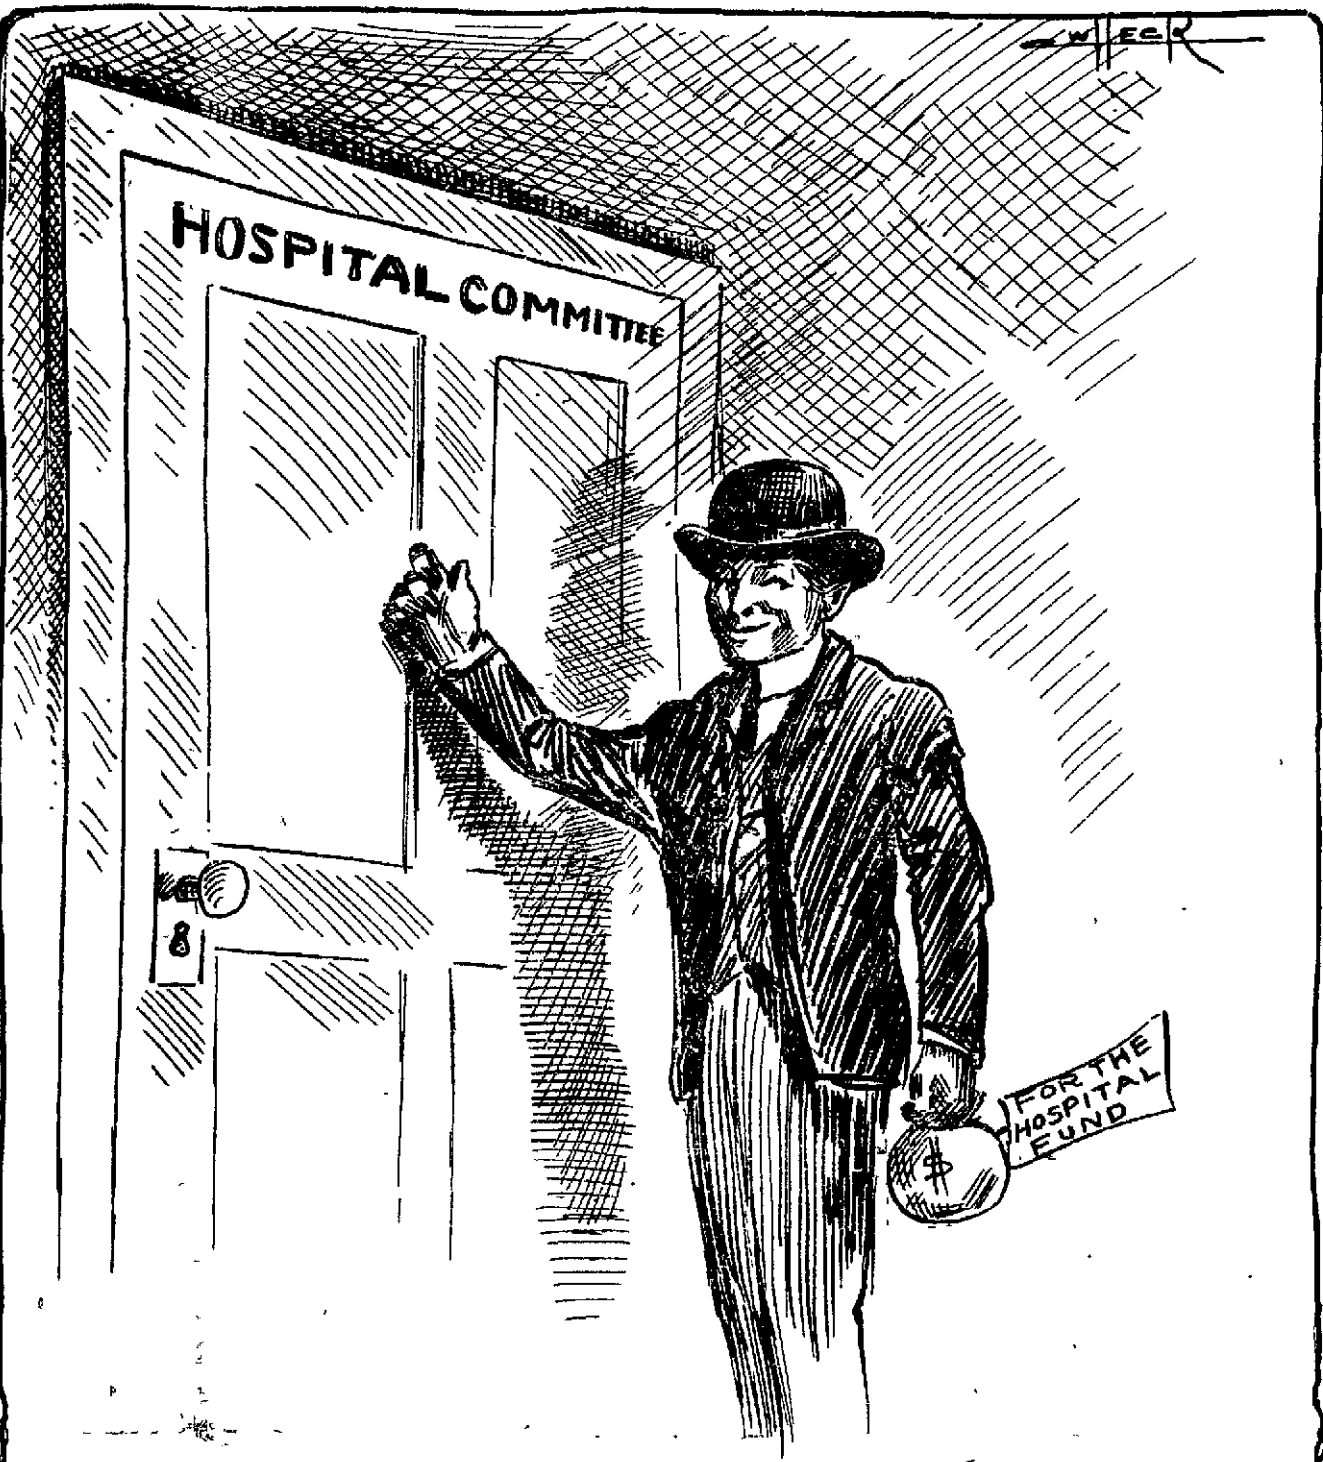

Most of us can stand it if strawberries come a little high at this season of the year, provided the bottoms of the boxes don't come high also.

## ANOTHER RIGHT WAY TO KNOCK

## CABLE STEAMER HAS RECOVERED 205 BODIES

New York, April 25.—Two hundred and five bodies of the victims of the Titanic disaster have been picked up at sea by the cable steamer Mackay-Bennett and are being brought back to Halifax, Nova Scotia. The captain of the Mackay-Bennett confirmed the identification of Geo. D. Widener, son of P. A. B. Widener, of Philadelphia, in a wireless dispatch to the White Star line and gives information that the majority of the bodies will never come to the surface of the sea.

Captain Lardner of the Mackay-Bennett sent the following message which was received today by the White Star line through the Cape Race wireless station. "Drifting in dense fog since noon yesterday. Total bodies picked up 205. We brought away all the embalming fluid to be had in Halifax which is enough for 70 bodies. With a week fine weather I think we could pretty well clear up the relics of the disaster. It is my opinion that the majority of the

bodies will never come to the surface." Another wireless dispatch from the Mackay-Bennett has been received and says: "Bodies are in latitude 41:35 north, longitude 48-37 west and extend many miles east and west. Mail ship should give this a wide berth. Medical opinion is that death was instantaneous in all cases owing to the pressure when the bodies were drawn down in the vortex."

**WILL COMFORT "LIFER."**  
Columbus, April 25.—An Austrian prisoner in the Ohio penitentiary, serving a life sentence for murder, is a brother to one of the women survivors of the Titanic wreck. She is bound for Steubenville from Austria and will visit her brother in the penitentiary shortly.

## ANTHRACITE MINERS AND OPERATORS HAVE AGREED

Philadelphia, April 25.—Confirmed by the general committee to miners and operators that the anthracite suggest a method of settlement of differences in wages and hours of labor were dated of terms and conditions look had today when President Baer in this into an adjustment of all differences gave out the following: "Mr. George F. Baer, chairman of the operators' committee has issued a till after the meeting of the general committee for a meeting of the general committee on the second of May." ## MARINE BURYING GROUND

**Water Was Dotted With Bodies, Victims of the Titanic**

### PASSENGERS ON BREMEN

**Passed Through Wreckage and Many Women on Boat Became Hysterical.**

New York, April 25.—"April 19—4-30 p. m.—Latitude 42.2 North, Longitude 49.23 West. Passed a boat upside down, a great number of bodies and small pieces of wood, steamer chairs, etc. (Over 100 bodies.)"

Such is the entry in the log of the Bremen, of the North German Lloyd line, in port here, to mark the tragedy of the Titanic, and in the few words are named the things which composed a sight so terrifying that the memory of it, still fresh in the minds of the steamship's passengers, cast a spell of grim quiet over what would have been a happy home-coming for most of those on board.

At reduced speed the Bremen steamed through what must have appeared to be a marine burying ground, strewn with wreckage and dotted with bodies of the Titanic's victims, while in the background were the pure-white, monumental icebergs.

The officers of the Bremen did not care to talk about the tragic spectacle, but among the passengers several were found who gave accounts of the dismal panorama through which their ship steamed.

Mrs. Johanna Stunke, a first class cabin passenger, described the scene from the liner's rail. "It was between 4 and 5 o'clock Saturday," she said, "when our ship sighted off the bow to the starboard an iceberg. As we drew nearer and could make out small dots floating around in the sea, a feeling of awe and sadness crept over everyone on the ship."

"We passed within a hundred feet of the southernmost drift of the wreckage, and looking down over the rail we distinctly saw a number of bodies so clearly that we could make out what they were wearing and whether they were men or women."

"We saw one woman in her night dress, with a baby clasped closely to her breast. Several women passengers screamed and left the rail in a fainting condition. There was another woman, fully dressed, with her arms tight around the body of a shaggy dog."

"The bodies of three men in a group, all clinging to one steamer chair, floated near by, and just beyond them were a dozen bodies of men, all in life preservers, clinging together, as though in a last desperate struggle for life. We couldn't see, but imagined that under them was some bit of wreckage to which they all clung when the ship went down, and which didn't have buoyancy enough to support them."

"Those were the only bodies we passed near enough to distinguish, but we could see the white life preservers of many more dotted the sea all the way to the iceberg. The officers told us that was probably the berg hit by the Titanic, and that the bodies and ice had drifted along together."

Mrs. Stunke said a number of the passengers demanded that the Bremen stop and pick up the bodies, but the officers assured them that they had just received a wireless message saying that the cable ship Mackay-Bennett was only two hours away from the spot and was coming for that purpose.

Other passengers corroborated Mrs. Stunke. The Bremen was about an hour passing through wreckage, and during that time she sighted six large icebergs. All of this time she was in communication with the cable steamship, the Mackay-Bennett, (Continued on page 5.)

## INTERNATIONAL CONFERENCE

Berlin, April 25.—The calling of an international conference to discuss the subject of the improvement of life saving facilities aboard passenger steamers is regarded as practically certain. The initiative taken by Germany in the matter aroused the greatest interest among other powers and the suggestion has been received everywhere with sympathy.

## PARADE MARKS OPENING OF STATE LEAGUE SEASON

Headed by a band under the lead-  
ership of Robert Dold, the Newark  
and Mansfield baseball clubs and  
many Newark fans, with the city of-  
ficials and attaches of the local base-  
ball club, paraded the streets of the  
city today before proceeding out to  
the first game of the 1912 Ohio State  
League season was played.

The Mansfield club arrived in the  
city over the B. & O. at 12:25, and  
went at once to the Warden Hotel  
where they hurried through their  
dinner and then hurried through their  
uniforms to join in the celebration.

The Newark boys, all anxious for  
the fray, had been in uniform for  
some time, waiting for the process-  
ion to move. As soon as the Mans-  
field boys had mounted the big Blair  
truck, the procession started out to  
the strains of a stirring march played  
by the band.

The long strings of automobiles pa-  
raled the streets of North and East  
Newark and then moved through the  
business section of town and west  
on Main street to Union where a  
straight shoot was taken for the bat-  
tle ground at Wehrle Park.

There was a good sized crowd on  
hand to greet the ball players and  
the uniformed men were soon at  
work, warming up and getting into  
shape for the fray.

As stated yesterday, the batting or-  
der of the two teams for the afternoon  
was expected to be as follows:

Newark.  
Nally, 1f.  
Shorelin, 2s.  
Williams, 2s.  
Markey, 1b.  
Ihrig, cf.

Womack, 1b.  
McCormick, 2b.  
Slagel, 3b.  
Redman or Wilkin, c.  
Higley, Isler, Farrell or Stecker  
pitchers.

The signing of Pfeiffer last night  
settled the outfield question and the  
crack little gardener was in the right  
pasture for the preliminary practice  
After the two teams had warmed

up to their entire satisfaction. Um-  
pire Pastorius stepped to the plate  
protruded his chest and announced  
"Ladies and gentlemen, battry's froad's  
game" etc., and Mayor Swartz  
walked to the pitcher's mound with a  
brand new "shining rock" and then  
"curved" one towards Safety Direc-  
tor Wayne Collier.

If the ball was not a strike, it was  
close to it for West Newark people  
claim that Mr. Swartz has been  
spending his spare time in his back  
yard, "working out" for the occa-  
sion.

With this ceremony disposed of,  
the umpire called "play ball" and  
the game was started.  
The day was ideal and the grounds  
were in splendid condition. The  
players looked natty in their uni-  
forms and most every one in the park  
was enthralled with the prospects of a  
splendid season ahead of the club.

## FACE AND SCALP SORE

**RESULT OF NEGLECTED ECZEMA  
—THIS IS PREVENTABLE**

Try This Remedy at Our Risk.  
Failure to treat eczema of the  
face early, or the wrong kind of  
treatment, almost certainly results  
in spreading and aggravating the  
complaint.

We have seen cases where the  
face and scalp had become one con-  
tinuous sore, due to the violent itch-  
ing and scratching.

Fortunately this need not happen  
now, for our new skin remedy, Sax-  
on Salve, always the itching so that  
the skin is no longer lacerated by  
the fingernails. And it sinks into  
and saturates the skin so thorow-  
ly, and is so wonderfully healing in  
its nature that it kills all germ life  
and promotes a speedy cure.

All who have a skin affection of  
any kind, eczema, barber's itch, ivy  
poisoning or any eruption, can try  
Saxon Salve at our risk and if the  
results are not wholly satisfactory  
to give back the money. Frank D.

**Roy Glick Takes the Count.**  
Indianapolis, April 25.—In the  
semi-final of the Mandot-Saylor  
cup, Roy Glick of Columbus was  
knocked out in the second round by  
Eddie Webber of Indianapolis. Both  
fighters threw science to the winds  
and the first round was a whirlwind  
affair, the men standing toe to toe  
and slugging. Glick gave as much  
as he took in the opening round,  
and it was a question of which man  
would get in the lucky punch in  
the second. In the latter round  
Webber rushed Glick to the ropes  
and landed left and right to the  
law. Glick gamely tried to get up  
but fell back, knocked out.

**RESOLUTION.**  
Declaring it necessary to improve  
Tenth Street from Granville Street to  
Hoover Street.

Be it resolved by the Council of the  
City of Newark, State of Ohio, Unio-  
fourths of all the members elected  
thereto concurring:

Section 1. That it is necessary to  
improve Tenth Street from Granville  
Street to Hoover Street by paving  
thereof, in accordance with the plans,  
specifications, estimates and profiles  
prepared by the City Engineer, now on  
file in the office of the Director of Public  
Service, which are hereby approved and  
which are open to the inspection of all  
persons interested.

Section 2. The material used in the  
construction of said improvement shall  
be asphalt, brick, stone, cement or  
other material as shall hereafter be  
determined.

Section 3. That the grade of said  
street at its center line and the grade  
of the curbs shall be described as fol-  
lows: Commencing at the north line  
of Granville Street in the center line of

## RESOLUTION.

Declaring it necessary to improve Lo-  
cust Street from the B. & O. R. R.  
Tracks to Stansberry Street, and  
from Fourth Street to Fifth Street.

Be it resolved by the Council of the  
City of Newark, State of Ohio, Unio-  
fourths of all the members elected  
thereto concurring:

Section 1. That it is necessary to  
improve Locust Street from the B. &  
O. R. R. Tracks to Stansberry Street,  
and from Fourth Street to Fifth Street,  
by paving and curbing the roadway  
thereof, in accordance with the plans,  
specifications, estimates and profiles  
prepared by the City Engineer, now on  
file in the office of the Director of Public  
Service, which are hereby approved and  
which are open to the inspection of all  
persons interested.

Section 2. The material used in the  
construction of said improvement shall  
be asphalt, brick, stone, cement or  
other material as shall hereafter be  
determined.

Section 3. That the grade of the  
street at its center line shall be de-  
scribed as follows: Commencing at the  
west line of the B. & O. Railroad  
at the present elevation of said track,  
thence north along said center line to  
the west line of the B. & O. Railroad,  
thence westerly along said center line  
by a descending grade to the east line  
of Stansberry Street at an elevation of  
94.6 feet. The grade of the north side  
of said street shall be the same as that  
described for the center line. On the  
south side of the street the grade shall  
conform to the sidewalk and drive-  
ways of the Consumers' Brewing Com-  
pany. Commencing at the west line of  
Fourth Street in the center line of  
Locust Street at an elevation of  
100.75 feet; thence westerly along said  
center line by an ascending grade to an  
elevation of 112.2 feet at the east line  
of Fifth Street, as shown on the plans  
and profiles now on file in the office  
of the Director of Public Service.

Section 4. That the whole cost of  
said improvement, less one-fifth  
thereof, the cost of interest on the  
deferred payments at 5 per cent  
per annum; provided that the owner  
of any property assessed may at his  
option pay such assessment in cash  
within thirty days from the  
passage of the assessing ordinance, to  
the treasurer of the City of Newark,  
and the balance of the deferred pay-  
ments shall not include any item of  
interest upon bonds to be issued in  
anticipation of the collection of the  
deferred assessments, and all other necessary  
expenses.

Section 5. That the assessments so  
to be levied shall be paid in ten an-  
nual installments, with the interest on  
the deferred payments at 5 per cent  
per annum; provided that the owner  
of any property assessed may at his  
option pay such assessment in cash  
within thirty days from and after the  
passage of the assessing ordinance, to  
the treasurer of the City of Newark,  
and the balance of the deferred pay-  
ments shall not include any item of  
interest upon bonds to be issued in  
anticipation of the collection of the  
deferred assessments, and all other necessary  
expenses.

Section 6. That the remainder of  
the entire cost of said improvement  
not specially assessed, including cost  
of interest thereon, and the cost of  
any such award shall be paid by the  
owner of the property assessed in the  
manner provided by law.

Section 7. This resolution shall  
take effect on and after its passage and  
after its passage and legal publica-  
tion.

Passed April 15th, 1912.

## NEWARK BOYS MADE BIG HIT AT COSHOCTON

The Elks of Coshocton Wednesday evening covered themselves with glory by presenting one of the best amateur minstrel shows ever witnessed in Central Ohio. The production was under the direction of genial "Billy" Lyons and to him great credit is due for the success, both financially and artistically.

The Coshocton boys all acquitted themselves admirably, and are deserving of much praise for their excellence in arranging the first part and rendition of the different vocal numbers and choruses.

Clyde Reasoner of Zanesville made a big hit with his song, "The Songs That Mother Used to Sing," and was forced to respond to a number of encores.

Bernie Wingerter, who has made a reputation as a burnt cork artist, that any professional might envy, was the first vocalist on the program. It would not be necessary to

inform those who have previously heard Bernie that he made good. He did more than that. He proved that Newark can produce the real minstrel, and his rendition of "The Ragtime Violin" was par excellence. The audience compelled Bernie to respond to several encores, and he did so in a manner that proved that he was more than willing to assist in making the entertainment a success.

Gene Schlegel of this city, who left the amateur class shortly after his first appearance here in "Aurore," and who has had several splendid offers from minstrel companies to join their aggregations, was also one of the big hits of the Coshocton show. He sang, "I Didn't Mind It When He Landed, But When He Sit Down." Mr. Schlegel is a great favorite in Coshocton, and his many friends accorded him a great reception. Gene was in good form and his conception of the song was excellent. He also was forced to respond to several encores. Both Messrs. Wingerter and Schlegel have a fine stage presence, and as portrayers of negro comedians have established a reputation that is bound to be lasting.

After the entertainment a social session was enjoyed in the Elks club rooms and an excellent luncheon was served, over two hundred being seated at the banquet tables. Mr. Charles Henry and Mr. H. D. Hale of this city attended the show, and with Messrs. Wingerter and Schlegel, were guests at the luncheon.

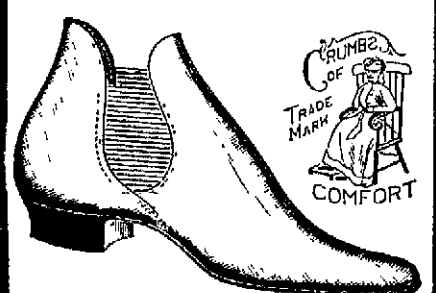

## Butter Krust Bread

Is the bread for everybody. Children like it because it is tasty. Grown folks enjoy it because it is genuine—good and substantial. The secret to its high quality lies in the fact that it is made with milk, and the skill employed in the mixing, making and baking.

**CURE YOUR KIDNEYS.**  
Do Not Endanger Life When a Newark Citizen Shows You the Cure.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor, why allow themselves to become chronic invalids, when a tested remedy is offered them?

Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.

If you have any, even one, of the symptoms of kidney diseases, cure yourself now before Bright's disease sets in. Read this Newark testimony: A. J. Andrews, 27 1-2 W. Main Street, Newark, Ohio, says: "Doan's Kidney Pills are an excellent kidney remedy and do all they are advertised to do. My kidneys had been in bad shape and the secretions were beyond control. I also had bad backaches. Seeing Doan's Kidney Pills advertised, I obtained a supply at A. F. Crayton & Co's drug store. They stopped the pain and regulated my kidneys."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## BOEHLER WON GAME JUST A YEAR AGO

Pitcher Boehler had the inside track on the other members of the squad for the selection to pitch the opening game today. The big right hander pitched his first game of professional baseball a year ago yesterday, when he opened the season for Springfield against Marion and won his contest, allowing but eight hits. He was in fine fettle Thursday morning and anxious to get into the fray. Manager Grim did not announce the batteries until just before the game, and it was impossible to tell at noon just who would work.

## HOW GIRLS MAY AVOID PERIODIC PAINS

The Experience of Two Girls Here Related For The Benefit of Others.

Rochester, N. Y.—"I have a daughter 13 years old who has always been very healthy until recently when she complained of dizziness and cramps every month, so bad that I would have to keep her home from school and put her to bed to get relief."

"After giving her only two bottles of Lydia E. Pinkham's Vegetable Compound she is now enjoying the best of health. I cannot praise your Compound too highly. I want every good mother to read what your medicine has done for my child."—Mrs. RICHARD N. DUNHAM, 311 Exchange St., Rochester, N. Y.

Stoutsville, Ohio.—"I suffered from headaches, backache and was very irregular. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, and before I had taken the whole of two bottles I found relief. I am only sixteen years old, but I have better health than for two or three years. I cannot express my thanks for what Lydia E. Pinkham's Vegetable Compound has done for me. I had taken other medicines but did not find relief."—Miss CORA B. FOSNAUGH, Stoutsville, Ohio, R. F. D., No. 1.

Hundreds of such letters from mothers expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for their daughters have been received by the Lydia E. Pinkham Medicine Company, Lynn, Mass.

## MARCONI WAS FIRST WITNESS

Washington, April 25.—Guglielmo Marconi, head of the Marconi company who testified at the hearing in New York came to Washington today at the request of the chairman and was the first witness. Before taking the stand Mr. Marconi frankly discussed the message sent from New York to the wireless operators on the Carpathia by Chief Engineer Semmes of the Marconi company asking them to hold their next transmission when they reached port for "four figures."

"Yes, that message was sent by Semmes," said Marconi, "but I knew nothing about the message until afterwards. There is this thought about that which I want to say. The message was not sent while the Carpathia was at sea. It was not sent until the Carpathia had passed Sandy Hook and was nearing port."

Senator Smith asked Mr. Marconi what he had to do with the wireless apparatus ashore, aloft and whether he selected the operators. "I am consulted as to installation of the apparatus. I do not dictate the style of apparatus, but am only called to advise. I travel around the world a good bit on just this wireless business."

"What is your official connection with the British government?" "I have no official connection with the British government except for consultation. Our company has a contract with the government for the extension of wireless in the British empire. The work will take us at least 18 years."

## RED OAK HILL.

Rev. A. J. Byers of Newark, spent from Friday till Monday with Mr. S. T. Thompson and family.

Mr. Mrs. Thompson and daughter Ethel called on the former's sister T. T. Davis and family Sunday.

Miss Ethel Thompson visited Miss Beitha Wilson Sunday afternoon after noon and attended church at Bureli's Chapel Sunday night.

"Mary, did you see Mr. Jones in church Sunday?" "Yes, Grace, and I hardly recognized him, as I thought he was bald or nearly so. What has he done?" "Well, Mary, Mrs. Jones told me that he has been using Mrs. Mason's Old English Shampoo Cream and he is so pleased he can't talk about anything else."

"If people would only take care of their hair, keep the scalp free from dirt, dandruff and itching scales, with this English Tonic, Hair Shampoo, an abundance of healthy hair would be the result."

"I know a lot of people who are using Mrs. Mason's Old English Shampoo Cream. They are all so enthusiastic over it. Frank D. Hall—our local druggist sells it; 25c a tube, enough for three or four shampoos."

**The Danger After Grip.**  
Lies often in a run-down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. The greatest need then is Electric Bitters, the glorious tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen their nerves, build up the system and restore to health and good spirits after an attack of grip. Suffering, try them. Only 50c. Sold and perfect satisfaction guaranteed by F. D. Hall.

**There Are Two Good Reason Why We Should Have Your Business.**

FIRST—Our association is not established for profit but for the mutual benefit of its members. Its earnings after actual expenses are paid are divided pro-rata among its members.

SECOND—We protect our members savings by only loaning money on real estate after the property has been inspected by three members of our board of directors and has been approved by the Board. As a further precaution after the property has been appraised at its actual valuation only two-thirds of the amount is loaned to take care of any possible shrinkage.

**Advice To Painters**

"Don't judge paint by the price. Judge it rather by its efficiency; by the yards of surface covered and years of service rendered. To do this is to get the best results for your patrons. That's the way to develop your own business. We know, because we were once painters ourselves."

And because we were painters and know the needs of painters, we have learned to make the kind of paint that painters want—the kind that is practical; the kind a painter recognizes, with the first sweep of the brush, as the real goods.

**Aurora Mixed Paint**  
is a painter's paint that appeals most to the most practical painters.

It is a pure lead and linseed oil paint reinforced by the right amount of inert pigments to give it the durability that will appeal to the builder who pays for the job.

It covers well, lasts long, looks good. It is scientifically ground and the ingredients are so proportioned as to give the best results in this peculiar climate.

Aurora is a general house paint, but we make special paints for special uses—steamboat, railroad, wagon, carriage, structural iron paints, each peculiarly adapted for purposes for which it is intended.

SPARTAN STAIN—a durable, beautiful, practical varnish stain for popular indoor use. Renews and lengthens the life of floors, doors, woodwork and furniture.

## ASTRONOMICAL EVENTS.

(From noon today to noon tomorrow.)  
Sun sets 6:50, rises 6:05. Evening  
stars: Mars, Saturn. Morning stars:  
Venus, Jupiter, Mercury.

Let us be thankful for every bit of  
evidence of heroism on the Titanic, by  
the victims and by the survivors. It  
all goes to ennoble humanity and  
make the world better. A woman in  
Chicago says that she and her daugh-  
ter owe their lives to John Jacob  
Astor, and a Long Island woman says  
she would have been lost if J. Bruce  
Ismay had not helped her into a boat.

There is plenty of money behind the  
candidacy of the third-term, and the  
"good Trusts" are doubtless being bet-  
ter than ever. The primary campaign  
in New York cost the Roosevelt men  
close to \$60,000, and newspaper adver-  
tising alone in Massachusetts will cost  
\$50,000 or more. Using money to over-  
throw the money power is a good deal  
like casting out devils by the help of  
Satan himself.

Theodore Roosevelt has eaten his  
own words on the tariff in his life of  
Benton, on the independence of the  
judiciary in his life of Marshall, on  
the Supreme court's decision on the  
income tax in a magazine article, on  
representative government in his  
"American Ideals," and in his an-  
nouncement to the country regarding a  
third term. He has betrayed his  
friend, whom he made his successor,  
and his party, which he is now en-  
gaged in dividing. Yet he poses as the  
champion of the simple truth, the  
square deal, and the only real thing as  
a political progressive.

## Good Spring Tonic

"We have taken Hood's Sarsaparilla  
for a spring tonic and as a blood puri-  
fier. Last spring I was not well at all  
and when I went to bed I was tired and  
nervous and could not sleep well. In  
the morning I would feel twice as  
tired; my mother got a bottle of  
Hood's Sarsaparilla, which I took. I  
felt like a new person when I had  
finished that bottle. We always have  
some of Hood's medicines in the house."  
Hilvey Roselle, Marinette, Wis.  
There is no "just as good" medicine.  
Insist on having Hood's.  
Get it today in usual liquid form or  
chocolate tablets called Sarsatabs.

## AMERICAN SHIPS.

There recently returned to New York  
from a trip around South America  
some one hundred and one citizens of  
the United States, who united in sign-  
ing a statement which has been given  
to the press, deploring the lack of  
ships flying the American flag. The  
party visited Buenos Ayres, Argen-  
tina, commerce second only to New  
York in the western hemisphere, Rio  
de Janeiro, Valparaiso, Santos and  
other great ports, "but at all places  
and at all times we have looked in  
vain for a merchant steam vessel car-  
rying the flag of the United States,"  
they say.

Such a statement might be used by  
advocates of the ship subsidy scheme  
to bolster up their cause. The people  
who prepared the statement, however,  
did not have subsidies in mind. In-  
stead, they argue that the principal  
reason for the lack of American ships  
is the law which prevents the acqui-  
sition of foreign-built vessels for  
American registry in foreign trade.  
This law, they point out, although  
intended to encourage American ship-  
building has not resulted in the  
building of American ships for fore-  
ign trade. The cost of such building,  
in this country, they assert, is prohibi-  
tively. Meantime, they say, American  
trade with the South American coun-  
tries is languishing and European  
countries are getting all the business.  
In this way American influence is  
minimized. The party joins in this  
appeal:

"This is the message we would con-  
vey to our friends and especially to  
those who shape the policies of our  
country.

"Remove this prohibition upon the  
American registration of foreign-built  
ships for foreign trade.

"Let us buy cheap ships abroad, let  
them be officered by American citi-  
zens, and let them carry our flag to  
the people who want to see us, and  
who are ready and eager to know and  
trade with us. By this simple process  
we shall take nothing from our ship-  
yards that they now enjoy, since they  
do not build ships for foreign trade;  
we shall add to our merchant marine  
and our foreign and domestic trade;  
we shall lay the foundation of a naval  
organization of the greatest value in  
case of war with a foreign nation; and  
we shall establish a real bond between  
the Americas of the Western Hemis-  
phere that will be of vast, mutual and  
permanent benefit.

"The early opening of the Panama  
Canal makes this subject of trans-  
cendent importance at this time."

Is it any wonder that President  
Taft denounced as "indefensible" the  
wool tariff rate in Schedule K? Rates  
of 141 per cent on wool fabrics, 165  
per cent on cheap blankets and 143  
per cent on flannel underwear fur-  
nish staggering proof of protective  
rapacity. An article worth \$5 seeking  
entry into markets would be sad-  
dled with a duty of \$7.05. Of course  
such rates are prohibitory. They are  
not intended to bring revenue into the  
public treasury; but, instead, into the  
pockets of the protected manufacturer.  
Yet American consumers who wear  
woolen clothes and sleep under woolen  
blankets are expected to slavishly  
submit to this kind of extortion and  
make no protest! And yet, too, Presi-  
dent Taft, knowing and feeling the  
great injustice to the American con-  
sumer of woollens vetoed the bill  
passed by Congress to relieve them  
of this outrageous wrong. The people  
will protest when they vote next No-  
vember.

The eight Chinamen on board the  
Titanic were not embarrassed by any  
fine sentiments, and they had far  
greater cunning than any white man  
in taking care of themselves. Six of  
them got into lifeboats before the  
women, and hid under the thwarts.  
Let us be thankful it was the un-  
lightened Celts and not men of our  
own race who did this. There are  
cases where it is to the honor of the  
Caucasian to be beaten.

The publicity bill was drafted after  
Mr. Henry, who is W. J. Bryan's  
mouthpiece in Congress, had received  
his cue from the Nebraskan. Mr.  
Rucker, who aided in its preparation,  
is Champ Clark's floor representative.  
But when the bill was brought up by  
Messrs. Henry and Rucker, other  
Democrats at once saw that it offered  
a loophole to candidates desiring to  
conceal campaign expenditures until  
after nominating conventions or pri-  
maries because it did not compel the  
publication of any statement until 30  
days after these conventions or pri-  
maries were called. As the bill finally  
passed it carried an amendment by  
Representative Bathrick of Ohio, re-

## NEVER TAKE DRUGS INTO THE STOMACH TO CURE A COLD

Here is a Simple, Harmless Remedy,  
Easy to Apply, That Cures a  
Cold in a Few Hours.

A piping, hot foot bath, a cup of  
hot lemonade, and a free application  
of Nostriola to the nostrils under  
arm pits, on throat, and chest, or  
wherever there is misery, will knock  
the worst cold in a few hours.

Nostriola is a simple, common  
sense treatment, easily applied, and  
no waiting for results. That's why  
it appeals to everyone.

The Nostrils and the air passages  
are the breeding places for the cat-  
arrhal and hay fever germ. When  
the membranes become sore and in-  
flamed you catch cold easily, and  
each new cold increases the inflam-  
mation until you have catarrh, hay  
fever, and kindred troubles.

This pleasant healing balm quickly  
reaches and heals the sore inflamed  
mucous membranes, opens the head  
and being an antiseptic, it also  
cleanses and purifies the parts.

In five minutes after an applica-  
tion of the Nostriola treatment, the  
head is clear as a bell, running of  
the nose is stopped and you distinct-  
ly feel the cold breaking up and  
leaving you.

Nostriola is put up in handy col-  
lapsible tubes, and you get about  
sixty days' treatment for 25 cents.  
Buy a tube at your drug store today,  
and you'll wish you had tried Nos-  
triola sooner.

Even more ambitious is the ar-  
rangement between Marconi's com-  
pany and the British government to  
establish an "all-red" wireless route  
connecting Great Britain with Can-  
ada, Australia, South Africa, India,  
and, in fact, every part of the em-  
pire. By such a scheme, with high-  
powered stations scattered throughout  
the world, the British government  
would eventually become inde-  
pendent of cables. The preliminary  
plans provide for stations at Lon-  
don, Egypt, Bangalore, India, Pre-  
toria, South Africa, and Singapore.

Although a resident of London,  
and a patriotic citizen of his adopt-  
ed land, Signor Marconi remains  
loyal to his native country, and at  
the beginning of the Italian-Turkish  
war he went to Tripoli to superin-  
tend the erection of wireless sta-  
tions for military use. While there  
he made a number of trips on the  
army aeroplanes and thus became  
interested in the science of aviation.

He is now understood to be work-  
ing on inventions for the improve-  
ment of flying machines, but has re-  
fused to make any announcement as  
to his projects in that direction.

Still a youngster, with the best  
part of his life before him, is Gug-  
lielmo Marconi, the wizard of the  
wireless, for he was born at Bol-  
ogna, Italy, 38 years ago today, Apr.  
25, 1874. While his father was  
Italian, the mother of him was Irish,  
the second wife of Joseph Marconi,  
a well-to-do citizen of Bologna.

Guglielmo, which is Italian for Wil-  
liam, was given an excellent educa-  
tion by private tutors, and at Leg-  
horn and the University of Bologna.  
He early became interested in chemi-  
cal and electrical problems, and by  
the time he was 15 his family was  
convinced that little Willie was a  
genius—a conviction they have had  
no reason to change.

We like to think, although doubt-  
less it is seldom true, that there is  
a critical moment in the life of ev-  
ery great man which determines his  
whole future career. So it is told  
that one day Signor Marconi, while  
a student at the University of Bol-  
ogna, cast a pebble, or heaved a  
rock, into a mill pond, lake or other  
body of water. Little waves widen-  
ed in circles around, and little  
waves have ever had a habit of do-  
ing. But the phenomenon set Gug-  
lielmo to thinking. If one flings a  
sound into the air, he mused, will  
there not be waves in the air cor-  
responding to the waves on the wa-  
ter? He surmised that there might  
be, and so erected a pole, with a  
Morse key on top of it, in his father's  
vineyard. A similar pole, 10  
miles away, caught the message, and  
then and there the impossible was  
accomplished and wireless telegraphy  
became an accomplished fact.

Marconi was then 21. At 24 he  
sent a message across the English  
channel, and the world gasped with  
amazement. At 27 he flung a mes-  
sage across the Atlantic. Now the  
miracle of yesterday has become the  
commonplace of today. The accom-

plishments of the Italian-Irish in-  
ventor during the last decade would  
fill several volumes. What he pro-  
poses to do is more interesting.

One of the Marconi projects that  
will soon become a reality is the  
establishment of a direct wireless  
system between London and New  
York. At present transatlantic mes-  
sages are sent between the stations  
at Clifden, Ireland, and Glace Bay,  
Nova Scotia. Under the new ar-  
rangement high-powered stations  
will be erected in the suburbs of  
New York and London for the di-  
rect transmission of wireless mes-  
sages between the greatest cities of  
the New and Old Worlds. Signor  
Marconi predicts that this system  
will be in operation by the first of  
next year.

Even more ambitious is the ar-  
rangement between Marconi's com-  
pany and the British government to  
establish an "all-red" wireless route  
connecting Great Britain with Can-  
ada, Australia, South Africa, India,  
and, in fact, every part of the em-  
pire. By such a scheme, with high-  
powered stations scattered throughout  
the world, the British government  
would eventually become inde-  
pendent of cables. The preliminary  
plans provide for stations at Lon-  
don, Egypt, Bangalore, India, Pre-  
toria, South Africa, and Singapore.

MAN'S DOMINION

"I have conquered the air," man cries; "my pinions shall sweep the  
skies." And, there comes a gle and his levers fail, and he sinks to the  
earth and dies. "Her secrets I'm bound to wrest from  
out Dame Nature's breast." And Dame Nature kicks at  
her breast, and pricks, and scatters him galley west. "I  
have conquered the sea, I think," says man, with a  
cheerful wink; "watch the ocean wilt! For I've gone and  
built a vessel that cannot sink!" He shows us his rare  
designs; all perfect his plans and fine, and we softly say  
as we go our way that the sea should, take in its sign.  
He launches his mighty bark, that's safer than Noah's  
ark; it's sleek and clean in its lines, I ween, and swift  
as a trotting shark. "It simply can't sink," he claims;  
"its bulkheads and mighty frames will defy the knocks  
of the bergs and rocks and the ocean's wildest games."  
He sends it a-sailing then, this triumph designed by  
men; God gives a twist of his mighty wrist, and the  
sea is on top again.

## SOCIETY

On Tuesday evening about sixty of the Bliss College students surprised Professor and Mrs. W. C. Worstell at their home on Cedar street and presented Mr. Worstell with a fine mahogany rocker.

Mrs. McGonagle, who is in charge of the shorthand department, made the presentation speech and recited the following poem in honor of the occasion:

When the busy day is over and your mind from care at rest,  
To be seated in this arm-chair we think you'll find the best.  
For since you now are wedded we feel you never more should roam,  
But when the evening shadows gather, quietly sit down at home.

Because, one hunting season you freed the boys to hunt the "Duck,"  
Then you took the chance to "sprinkle" them to one fair "Daisy" pluck.  
Now you must entertain her, and to be comfortable the while,  
We want you both to be seated in this chair, which you may do in style.

And when you thus are seated, if your throats should chance to turn,  
To the busy school and office where your daily bread you earn,  
Let your imagination in a ruminating way,  
Take in each separate pupil whom you instruct day by day.

But should it have happened that some one has been unkind,  
Just "forget it" and consider that he had a vacant mind.  
For by this token of remembrance they want you to always feel  
That whatever happens this is a heartfelt friendship seal.

Then, should your memory from out your own berth stray,  
Pray have a thought of your neighbors who work near you every day.  
Above the din and rattle of the typewriter noise  
You may hear the hum of voices of the stenographic girls and boys.

They, too, ask to be remembered as ones who had a share  
In presenting as a token of appreciation this chair.

Yet another who would ask you of her to have a thought,  
She who daily with you labors that the best efforts may be wrought,  
Always remember kindly that though mistakes she may have made,  
It was her earnest endeavor that your every wish should be obeyed.

While the days are fitting by you, as naturally they will,  
May contentment, success, and happiness each of your passing moments fill,  
And when the time has come to pass from this earth we love,  
May we have lived that we may meet "Will" and "Daisy" in that happy home above.

The evening was very pleasantly

MOVING DAY FOR BALL PLAYERS

Today was moving day for the Newark ball players who have been "guests" of the club management at Hotel Warden. With the opening of the season, each man's salary starts and he is expected to find his own boarding and rooming place. All the players packed their suitcases and left the hotelery this morning.

SOLDIERS EXPECT TO TAKE FIELD

Pensacola, Fla., April 25.—All of the heavy guns at Ft. Pickens and Ft. McRee have been put out of commission by the soldiers here and at Ft. Barancas instead of having ordinary artillery drills daily. It is the general opinion that preparations are being made to take the field on a short notice similar to the movement to the Mexican border some months ago.

HARRISON AND PFEIFFER BOTH SIGN CONTRACTS

Infielder W. J. Harrison arrived last night from Springfield and with Outfielder Pfeiffer, who arrived the night before, he fixed his name to the contract offered him by Manager Grim. There are no holdouts now with the Newark club. All have signed, and although there was some difficulty in several cases in agreeing to the terms, the differences were all adjusted, and the boys joined the fold. Harrison is suffering from a bad leg right now and was in no condition to enter the game, so the fans did not get a chance to look him over. Pfeiffer was in good shape and was sent to right field.

**Cold Coming? Go To Your Doctor**  
You may cough tomorrow! Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine at hand. Your doctor's approval of its use will certainly set all doubt at rest. Do as he says.

## Daddy's Bedtime Story

The Little Fruit  
People and Their  
Queer Parade

ALL the pretty green leaves were out on the trees, and many of the earlier flowers were in full bloom, delighting those little folks who, like Jack and Evelyn, lived near enough to the woods to go out every day to pick them.

"The flowers are no doubt charming, but there are other things a-coming," chanted daddy as he climbed the stairs with the children. "If you are very, very good tonight I'll tell you what I dreamed."

"Well, I was just shutting my eyes for forty winks. I had been reading a book, and perhaps it was a trifle dull."

"And suddenly I found myself in the midst of a road, a charming road, with fresh green grass growing on each side of it and with jolly flower faces peeping over the tops of rustic fences."

"What was my surprise to hear a band of music, and as I turned a corner I saw a procession coming toward me."

"At the head of it was quite the funniest band I have ever seen. The drum major was a big fat crow, and behind him with trumpets and drums and all the other instruments which a brass band should have come a company of birds. There was the bluebird and the robin and the thrush and the catbird, the blackbird, the vireo, the tanager, the cheewink and many other feathered friends of the garden and the fields. They looked so funny puffing away at the horns that I stood at the side of the road and stared."

"After the brass band had strutted by a company of the jolliest little cherries I ever hope to see came hopping along on their stems. They wore funny cocked hats made of cherry leaves."

"After them came a regiment of apples and then one of peaches and another of pears."

"The procession dwindled away to little fellows like blackberries, and there seemed to be an endless number of these. When the blackberries were past the raspberries swept by, and then there were buckberries, and when the elderberries came bobbing by I exclaimed:

"On the name of common sense, who and what are they?"

"Why, don't you know? A little butterfly replied, primly pushing her head over the fence. 'They are nice new fruit for Jack and Evelyn hurrying to their places on the trees in the orchard.'"

"And then I suppose I shouldn't have done it, for it spoils the story, but I laughed right out loud, and the pretty road and the procession and everything vanished away, and I was back in the sitting room with a dull book on my lap. But, never you mind, I think that fruit is on its way to us, and some morning we may wake up and find it on the trees."

## Quarter Century Ago.

(From Advocate, April 25, 1887.)  
Mr. Erman Penney, wife of Mr.  
George Penney, died at the family res-  
idence on Cedar street.  
The iron furnace at Shawnee, man-  
aged by Mr. Will Blood of this city,  
is shut down for repairs.

Quite a pleasant cooking club meet-  
ing was held at the residence of Mrs.  
Weigand on West Church street.  
Mr. George Grasser and wife and  
William Wells and wife took dinner  
with Captain Frank Warden of the  
Hotel Warden yesterday.

## Fifty Years Ago Today.

April 25.  
Farragut demanded the sur-  
render of the forts at New Or-  
leans, and it was refused. The  
Confederate garrisons mutinied.

## Twenty-five Years Ago Today.

The renomination of President  
Cleveland was the topic of the  
day. It was announced that the  
new English fleet would consist  
of twenty-five ships, all complete  
in 1892, at a cost of \$65,000,000.

## "LIL' ARTHUR" IS HURT IN SMASHUP

Pittsburg, April 25.—Jack John-  
son, champion pugilist, was injured  
severely. It is believed, here late  
yesterday, when a large automobile  
truck ran into the rear of his ma-  
chine. The champion had several  
tendons in his back sprained, while  
his clothes were torn and he was  
covered with mud. Johnson's valet  
was slightly hurt.

Until May 1st I will sell coal at

**Former Pastor Ill.**  
Rev. H. Newton Miller, formerly  
of Newark, pastor of Broad Street  
Church of Christ, Columbus, has  
been ill several days, threatened  
with pneumonia.

**Old Building Painted.**  
The Bazaar building on the North  
side of the square is being repainted.  
This is one of the oldest buildings in  
the city being the first stone building  
ever erected in Newark.

**Returned to Hall's Drug Store.**  
Mr. Fred C. Wolverton, who has  
been attending school at the Phila-  
delphia school of pharmacy during  
the past year, has returned home and  
has resumed his position at Hall's  
Drug Store.

**Allison Bound Over.**  
"Red" Allison entered a plea of  
not guilty to a burglary charge in  
police court this morning, waived  
examination and was held to the  
grand jury under \$200 bond. He  
was represented by Attorney Linga-  
wife Heater Fined.

James Davis, arrested last night on  
a charge of being drunk and dis-  
orderly and destruction of property,  
was fined \$10 and costs in police  
court Thursday and ordered com-  
mitted until fine and costs were paid.

**Grocery Changes Hands.**  
R. A. Boring, formerly with Rut-  
ledge Brothers, has purchased the W.  
V. Asplach grocery at 275 West  
Church street and is now in charge  
of the business. Mr. Boring was for-  
merly of Thornville and is well  
known to Newark people. He will  
operate an up-to-date grocery and  
meat market. Mr. Asplach retired  
from the business on account of ill  
health.

## BOTH ANXIOUS TO SETTLE

New York, April 25.—Charles P.  
Neill, United States Commissioner of  
Labor, and Martin A. Knapp, presid-  
ing judge of the Commerce court, who  
are endeavoring to bring about a set-  
tlement of the wage controversy be-  
tween the railroad engineers and 50  
eastern railroads, conferred today with  
the sub-committee of the railroad men.  
The session was executive and at its  
conclusion Messrs. Knapp and Neill  
said: "Both the railroads and the en-  
gineers seem to be since and equally  
anxious for a settlement."

Warren S. Stone, grand chief of the  
brotherhood of locomotive engineers,  
said that the engineers "were not  
quibbling over words. We want re-  
sults, quicker results, fair play and a  
square deal. That is all we ask."

"We shall insist upon mediation un-  
til there is no further prospects of  
success from that source," Mr. Stone  
said. "We do not intend that the  
railroads shall drag this thing along  
to secure the appointment of a big  
committee hoping thereby that they  
may force the interests dominating the  
company to grant the increased  
rates."

## ACQUITTED OF MURDER.

Albany, N. Y., April 25.—J. V.  
McStea, a New Orleans theatrical  
manager, was last night acquitted of  
the murder of Arthur Brown, a for-  
mer baseball player on the Albany  
State League team. McStea shot  
Brown last summer when he found  
his wife in Brown's room.

## Notice of Sale of School Bonds.

Sealed proposals will be received at  
the office of the Clerk of the Board  
of Education, at the school of the  
City of Newark, Ohio, at Newark,  
Ohio, until 12 o'clock noon on  
Wednesday, May 1st, 1912,  
for the purchase of Bonds of said  
school district in the sum of ninety-  
eight thousand (\$98,000) dollars,  
dated May 1st, 1912, of the denomina-  
tion of five hundred (\$500.00) dollars  
each, bearing interest at the rate of  
five per cent. per annum, payable semi-annually  
from the date thereof, said interest to  
be paid by coupons attached to each  
bond, and said bonds are to be num-  
bered consecutively from one (1) to  
one hundred and ninety-six (196),  
inclusive, and be due and payable in  
the order of their numbers as fol-  
lows: Four (4) Bonds on May 1st, 1912,  
and twenty-six (26) Bonds on Novem-  
ber 1st of each year up to and in-  
cluding May 1st, 1937.

Said bonds will be sold on said day  
of May, 1912, to the highest bidder,  
date of sale, and no bid will be re-  
ceived for less than the par value of  
each bond, and the interest from the  
day of sale, all bids must state the  
gross amount and accrued interest to  
the date of delivery, and conditional  
bids or orders to bid are to be accom-  
panied by a certified check or lawful  
money equal in amount to ten per  
cent of the amount of bid, payable to  
the president of the Board of Edu-  
cation, upon condition that if the  
bid is accepted, the bidder shall re-  
ceive and pay for the bonds awarded  
to him upon the delivery thereof, said  
check or money to be returned to the  
bidder, and the property of said Board  
of Education if said conditions are not  
fulfilled, otherwise to be returned to  
the bidder. Bidders are required to satisfy  
themselves of the legality of the issue  
of said bonds.

Said bonds are issued by the author-  
ity of Sections seventy-six hundred and  
twenty-five (7631), seventy-six hundred  
and twenty-six (7632) and seventy-six  
hundred and twenty-seven (7627)  
of the General Code of Ohio, and under  
said bonds and under the authority of  
said Board of Education passed on the 19th  
day of March, 1912, for the purpose of  
erecting three school buildings in said  
district.

Said Board of Education reserves the  
right, before the sale of said bonds, to  
cancel or modify the same, and bids  
must be addressed to the Clerk of said  
Board of Education, and endorsed "Bids  
for Bonds."

# HOW OUR GOVERNMENT WILL CELEBRATE THE OPENING OF THE PANAMA CANAL.

THE NEW SAN FRANCISCO LOOKING TOWARD NOB HILL

BIRD'S EYE VIEW OF PANAMA-PACIFIC EXPOSITION SITE.

HARBOR VIEW SITE OF THE EXPOSITION.

By HAMILTON M. WRIGHT.

THE United States will celebrate the opening of the Panama canal with its greatest exposition in history—the Panama-Pacific International exposition in San Francisco in 1915.

The nations of the world will join with America in the celebration. Every civilized nation on earth and every country within the sweep of both shores of the Pacific ocean will be represented at the Panama-Pacific International exposition by the finest assemblage of displays that the world has seen.

Plans for the exposition are already matured, and for the next year the exposition authorities will be occupied in building rather than planning. After that will come the arrangements for exhibits and the final touches on a program of events of world importance and interest. A notable commission of architects of national reputation is engaged upon the plans, and within a few weeks first construction work will begin, when grading of the site and the building of a sea wall which will serve in part as the basis of a magnificent esplanade along San Francisco harbor commences.

## Strange Tribes and Peoples.

The opening of the Panama canal will be not only the most important commercial event in the history of the world, but it will mark a supreme epoch in the lives of the nations bordering upon the Pacific, and appropriately the visitor will see at the exposition the greatest assemblage of strange tribes and peoples of Pacific ocean countries ever brought together. Down Market street, San Francisco's main thoroughfare, will pass in exposition days such oriental pageants as the world has never seen. The nations of the orient, stirring from the sleep of centuries to the call of progress, will startle the occidental mind with the most bizarre and novel effects ever witnessed even in the far east itself.

The proclamation of the president, issued by authority of congress, has been delivered through the instrumentality of the department of state to every quarter of the globe. Inquiries as to the exposition are pouring in upon the exposition management from all parts of the world. The nations of the world, in recognition of America's great achievement at Panama, are preparing for participation in the exposition upon a more comprehensive scale than at any of the greatest of former world's expositions.

## Exhibits From the Philippines.

From every quarter of the globe come assurances of enthusiasm and interest in America's great Panama celebration. England, it is known, will be represented by her greatest Dreadnoughts when an international fleet of battleships assembles in the harbor of San Francisco upon the opening of the exposition. Every state in the Union will be represented in the exposition, and the government of the United States is lending every effort to attain in the exposition a celebration that will meet the highest standards of national pride. The people of California have raised more than \$20,000,000 as their contribution. This sum will be less than one-fourth the amount expended on the great fair.

The Pacific ocean countries—China,

Japan, India, Australia, New Zealand, the Straits Settlements—the countries of Central and South America, and the United States possessions—Alaska, the Philippines, Hawaii and Guam—will assemble displays which have never before been equaled and could scarcely have been brought together at any former world's exposition. The oriental displays, as indeed those from most parts of the world, will be shipped by steamer and landed directly upon the exposition grounds. In anticipation of an early start the Philippine assembly has already appropriated \$250,000 in gold for a government display at the exposition. The people of the Philippines intend to illustrate the progress of the islands under American rule and will emphasize the fact that conditions and opportunities in the islands today are far different from the way they were pictured in war times. Private displays and concessions from the Philippines will augment the showing from the islands. In line with their policy to take every advantage of the new era opening upon the Pacific the commercial bodies of the Philippines are opening headquarters in New York.

The two principal locations of the Panama-Pacific International exposition will be at Harbor View and in Golden Gate park. Harbor View lies as a crescent on San Francisco bay, midway between the ferry building and the Golden Gate. The west end of Golden Gate park, which will be used for exposition purposes, faces the Pacific ocean below the famous Cliff House.

Adjoining the Harbor View site of the exposition the government will expend \$1,800,000 upon the improvement of the Presidio military reservation, which will be really a part of the exposition and will be the scene of the greatest government service display ever made. The government fisheries, life saving, transport, as well as all phases of military life, will be portrayed. Transport docks will be built upon San Francisco bay at an expenditure of millions. The state of California will expend \$9,000,000, for which a bond issue has been authorized, in the improvement of the San Francisco water front along San Francisco harbor, and when the exposition opens a wonderful marine boulevard connecting the principal sites of the fair and following the shores of San Francisco bay along the commercial water front of the city, through the exposition grounds and through the hilly slopes of the Presidio out to and beyond the Golden Gate, will afford visitors a marvelous panorama not only of the exposition itself, but of the great hills that surround San Francisco bay, and tower up hundreds and even into the thousands of feet.

## Vast Fleet of Battleships.

Shortly after the exposition opens a composite fleet of the battleships of the world will gather in San Francisco harbor. From assurances now received it is anticipated that between eighty and a hundred foreign warships, in addition to those of the United States navy, will participate in the demonstration, and the sight of this vast international fleet anchored in the harbor and in full view of the thousands at Harbor View or upon the various vantage points of the marine boulevard will be one of the splendid spectacles of history. The

fleet will first assemble at Hampton Roads by invitation of the president and proceed through the Panama canal to the Golden Gate.

In harmony with the plans of the exposition authorities to place every possible resource which California and the west possess at the disposal of the nation in providing the local setting for what will undoubtedly prove the greatest world's fair in history, the municipality of San Francisco will expend many millions of dollars in decorating and adorning the city in preparation for 1915, so that it will really be an exposition all in itself. The two main streets, Market street and Van Ness avenue, will be decorated with classic columns and crossed at convenient intervals by arcades that will permit the visitor to pass above the street. The columns will be decorated with bunting and the flags of every nation in the world and at night will be the scene of dazzling electrical displays. The forty building on the water front at the foot of Market street and the principal entrance to the city will be adorned with a grand court of honor. From this point the visitor will be enabled to go either out Market street to the civic center or else proceed along the water front directly to the Harbor View site, a distance of about two miles. The civic center, near the junction of Market and Van Ness, will consist of a grouping of classic buildings representing an estimated investment of approximately \$8,000,000. The central structure will probably be a new city hall to take the place of the one almost completely destroyed in 1906. The exposition authorities have voted the sum of \$1,000,000 for the construction of an auditorium in which conventions will be held during the exposition. Private capital will engage in the construction of a great opera house, and a series of birds of the world will be shown in the exposition grounds. A new fire civic center will be located with parking, palms and statuary. From the

civic center the visitor may proceed along Van Ness avenue to the Harbor View site of the exposition.

## Great Wall of China.

The concession and amusement features at the exposition will be among the most striking and original ever displayed. The "Midway" will be located at the Harbor View site of the exposition, the location of the night life of the exposition, and every possible feature almost that can be conceived as appropriate to an exposition will be shown. The Chinese residents of San Francisco have under way a project for a great Chinese concession which will be surrounded by a replica of the great wall of China, enclosed within its environs a series of Chinese communities and embracing every possible feature of interest in Chinese life from the manufacture of silk and ivory and wood carving to samplings and junk floating on miniature waterways and portraying the life of the river dwellers around Canton. The concession will cost \$1,000,000, and will attract Chinese with American attractions and engineers will shortly leave for the orient. From Nevada concessions will establish a rip-roaring mining camp, picturing the days of '49 and the bonanza era of the Comstock lode. Bret Harle's heroes, old Wells Fargo stage drivers, gamblers, bad men, prospectors, shanings, holdups and killings, all imitation, will lend a real touch to the camp. But the chief attraction of Harbor View for most people will lie in its setting on San Francisco bay. As the crowd files the site extends along the water front for about a mile, but following the irregular contour of the shore the distance is more than that. Along the entire water front of Harbor View will be built an esplanade or board, along which will be a wide walk, and an extensive lawn will be made the basis of a superbly landscaped harbor. Classic columns will rise from the water's edge, and farther will be the great exhibition

structures—the Palace of Liberal Arts, the Educational building, the Manufactures building and other edifices that house the more serious phases of the exposition as distinguished from the amusement features. Harbor View lies as an amphitheater, with its slides the wooded slopes of the Presidio and the tenanted hills of San Francisco. It is near the most populous part of the city and is not more than twenty minutes' walk from Nob hill, where lived the multimillionaires of California's early mining days. Looking down from the hills, one can see all over the Harbor View site, while from Harbor View itself one may look out over the bay through the Golden Gate to the Pacific ocean.

## Wonderful Illumination Scheme.

At night Harbor View will be brilliantly illuminated with incandescents, Platin lights, waterfall illuminations. A chain of lights will stretch across the Golden Gate, the International fleet of battleships in the harbor will be illuminated, a huge commemorative structure towering 1,300 feet above the Golden Gate will be surmounted by a searchlight, and its outlines will be limited with incandescents. In fact, the contours of the exposition site will be visible for miles away. The marine boulevard will also be illuminated. A trackless trolley will take visitors along the boulevard through the Presidio to Lincoln park, which overlooks the Golden Gate and towers above the famous Cliff House. From Lincoln park the boulevard turns south and parallels the Pacific ocean to Golden Gate park, where will be located the permanent features of the exposition.

Lincoln park may be termed an intermediate site in the exposition, though indeed there is really but one site, Harbor View, Lincoln park and Golden Gate park all being units in a single comprehensive location that follows the shores of San Francisco bay out to the Golden Gate and then turns

south, paralleling the broad Pacific ocean beach to Golden Gate park. Aside from the huge tower, 500 feet high, at Lincoln park, the park, which comprises an area of 150 acres, will be terraced and adorned with statuary and palms, while Swiss chalets and an observation cafe of several stories and glass enclosed will afford sightseers a sweeping panorama of the exposition grounds, the Presidio, the Golden Gate and the Pacific ocean. Lincoln park rises more than 300 feet above the Golden Gate. Plans for the commemorative statue which welcomes ships from afar, as does the statue of Liberty in New York harbor, have been passed upon by the exposition directors.

## Beautiful Golden Gate Park.

Golden Gate park is eight blocks in width. It faces upon the Pacific ocean and runs back into the heart of San Francisco. Five hundred and forty acres in the west end of the park will be utilized for exposition purposes. The park today presents one of the most notable achievements in landscape gardening in the world. Roses bloom the year round, and palms and pines, exotic plants, lakes and little lagoons present an ideal setting for the permanent structures of the exposition which will be located here. Among the buildings now planned are a great concrete coliseum, which will be built around an existing stadium and will have a seating capacity of 75,000. A huge marble art gallery, a museum and an aquarium will be among other features. A working model of the Panama canal will connect chains of lakes that are at different levels. Hawaiian water gardens, Chinese, Japanese and Philippine gardens portraying many features of plant cultivation which have been known in the orient for thousands of years, particularly in China, but which are strange indeed to occidentals, will permit the visitor to gain, probably for the first time, a conception of one of

the most fascinating and picturesque pursuits that have ever come out of the far east to the self sufficient and industrial occident.

The Olympic Games.

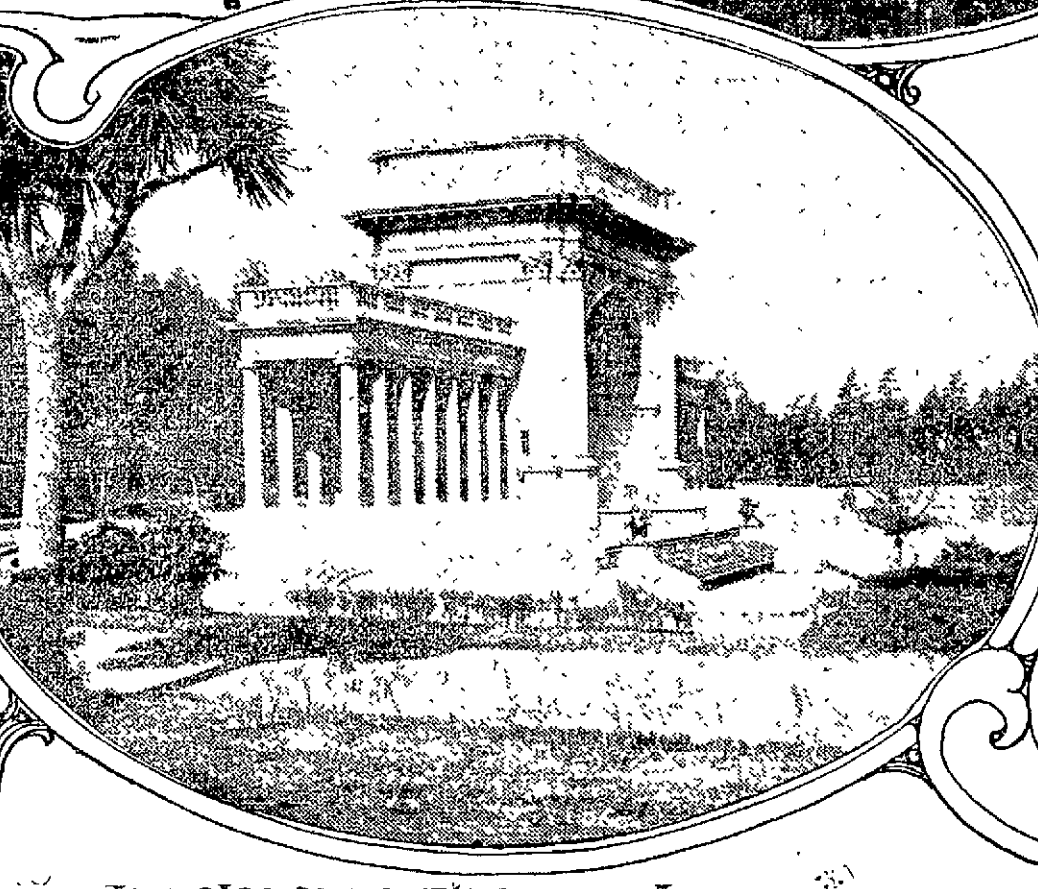

But the most marvelous feature of all the exposition has not been recounted yet. During the entire progress of the exposition an international program of events in which the nations of the world will take part will be as much a feature of the great fair as are the displays or buildings or the adornment of San Francisco. The program will consist of major events in cycles of two months apart, with minor events interspersed in between. Among the major events will be Olympic games, international automobile meets, international live stock shows, aviation meets, competitive drills between the crack cavalry and infantry of the United States and other nations, military maneuvers, motorboat racing and yacht races. A fleet of the nations of the orient, in which the most marvelous parades that the world has ever seen will pass down the streets of San Francisco. The program will be one of the spectacular features of the exposition. The days of '49 and the mission days of California will also be recalled in another festival. Among the minor but no less important events will be conventions, operatic and song festivals, educational and other assemblages.

Rejoice With America.

And so the exposition will close, having offered a meeting place at which the peoples of the world may rejoice with America at the completion of the stupendous task involved in the construction of the Panama canal and at the same time may come together to take advantage of the greater commercial era to spread throughout the world through the opening of the canal and the development of the west of the United States and the Pacific ocean countries.

## HEADACHE, BILIOUS STOMACH AND WASTE-CLOGGED BOWELS

Delicious "Syrup of Figs" Sweetens a Sour, Gassy Stomach, Cleanses Your Liver and 30 Feet of Bowels Without Gripe or Nausea—Takes Scum From Tongue.

All those days when you feel miserable, headache, bilious and dull are due to torpid liver and sluggish bowels. The days when your stomach is sour and full of gas, when you have indigestion; the nights when your nerves twitch and you are restless and can't sleep could be avoided with a teaspoonful of delicious Syrup of Figs. Isn't it foolish to be distressed when there is such a pleasant way to overcome it?

Give your inactive liver and ten yards of waste-clogged bowels a thorough cleansing this time. Put on end to constipation. Take a teaspoonful of Syrup of Figs tonight, sure, and just see for yourself by morning, how gently but thoroughly all the sour bile, undigested fermenting food and clogged

up waste matter is moved on and out of your system—no nausea—no griping—no weakness. You simply can't have your liver inactive and your thirty feet of bowels constipated with sour, decaying waste matter and feel well. The need of a laxative is a natural need, but with delicious Syrup of Figs you are not dragging yourself. Being composed entirely of luscious figs, senna and aromatics it cannot injure. Ask your druggist for the full name "Syrup of Figs and Elixir of Senna." Refuse, with scorn, any of the so-called Fig Syrup imitations. They are meant to deceive you. Look on the label. The genuine, old reliable, bears the name, California Fig Syrup Company.

### AMUSEMENTS

**Orpheum**  
A new bill opens this afternoon at the popular Arcade playhouse, the big headline on the program being that of Dainty June Robert and Company in a musical comedy sketch entitled "The Doll-Makers Dream." Little June is clever and versatile and the other members of the company handle everything that comes their way in nice style. Four people figure in the action of this sketch, which promises to be one of the best novelties of the season.  
Another pleasing number will be that of Katherine Silver and Billie Gray in a refined singing and talking specialty.  
Marselles, the much talked-about ventriloquist is also billed. He is said to offer a line of entertainment that is undeniably clever and pleasing.  
Helen Lane, a singing and dancing comedienne, will add much to this classy show.  
The Orpheumscope has a new picture. Don't forget the five reels of latest licensed motion pictures Sunday for 5 cents.

**H. M. S. Pinafore.**  
The Auditorium will have for its attraction Friday night, Gilbert and Sullivan's pretty comic opera, "H. M. S. Pinafore," presented by the voice department of the Denison "Conservatory of Music." Following is the cast:  
The Rt. Hon. Sir Joseph Porter, K. C. B., First Lord of the Admiralty—John M. Priske.  
Capt. Corcoran, commanding H.

## GRANDMOTHERS USED SAGE TEA

To Darken the Hair and Restore Gray and Faded Hair to its Natural Color.

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair and are fast following suit.

The present generation has the advantage of the past in that it can get a ready-to-use preparation called Wyeth's Sage and Sulphur Hair Remedy. As a scalp tonic and color restorer, this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers.

The growth and beauty of the hair depends on a healthy condition of the scalp. Wyeth's Sage and Sulphur Hair Remedy quickly kills the dandruff germs which rob the hair of its life, color and lustre. It makes the scalp clean and healthy, gives the hair strength, color and beauty, and makes it grow.

Get a 50 cent bottle from your druggist today. He will give your money back if you are not satisfied after a fair trial. P. D. Hall, agent.

the bodies we would have had only to throw them back into the sea, for they had been in the water about six days, and we had no place to keep them."

After figuring out the position of the wreckage at the time they met it and the position of the Titanic when she struck, Captain Wilhelm reached the conclusion that the icebergs and the bodies had drifted about 25 or 30 miles from the scene of the disaster. The drift had been to the northwest.

The White Star line announced yesterday that it has sent two men to Halifax to look after the recovered bodies of the Titanic victims, with instructions to secure the identification as quickly as possible.

After identification, the bodies, it was announced, will be shipped to any point desired by relatives, either in this country or abroad.

The White Star line officials believe that the search for the bodies will be expedited by the addition of the steamer Minia, making it possible for one boat to return to the search.

#### Saved Daughter's Life

This Father Refused to Let His Daughter Die.

Here is a story with a moral that many parents might take to heart.

"My daughter was very pale, nervous, thin, and suffered with severe pain in her back, so that we took her out of school. Her flesh became blue and she could not retain her urine. I spent over \$100 for medicines, but she grew worse. Finally I bought a bottle of Thompson's Barosma and she began to grow better right away. Five bottles of Thompson's Barosma made a complete cure, and today she is a perfectly healthy girl. Thompson's Barosma saved her life, for she was falling so fast that death was not far off."—Frank D. Meeder, Pleasantville, Pa.

If you are troubled with backache, sideache, weakness in the back or any liver or kidney trouble, then it's time for Thompson's Barosma.

Erman & Son sell Thompson's Barosma in two sizes, 50 cents and \$1.00. Trial bottle free at F. D. Hall's.

A NOTED DOCTOR SAYS, Everyone should use some little antiseptic powder in the shoes. Confining the feet in shoes, is in itself unnatural and causes a moist or smarting condition. People of refinement now use daily Allen's Foot-Powder. The antiseptic powder to be shaken into the shoes, and would as soon go without a dentifice as without the use of Allen's Foot-Powder.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

## EFFECTIVE WORK OF FIREMEN AT SAMPLE STORE

Prevented What Might Have Been Destructive Blaze — Shoe Store Opens as Usual.

Prompt and efficient work by the fire department, prevented the spread of what threatened to be a destructive fire in the basement of the Sample Shoe store in South Third street Wednesday night. The fire was discovered about 7 o'clock and prompt response of the department to the alarm turned in, was largely responsible for the prevention of a more serious blaze.

Just how the blaze originated is not known, but it is thought that it was due to crossed wires. Another theory advanced is that a lighted match might have been dropped through the sidewalk grating and communicated to inflammable material beneath.

When discovered the fire was burning merrily in the sub-cellar under the sidewalk. The firemen turned two streams into the basement through the ventilators under the show windows and carried a succum into the store and approached the blaze from the rear. They were able to confine the damage done by fire, entirely to the front portion of the basement where most of the surplus stock of rubber goods was stored.

The greatest damage was done by smoke and water. A considerable quantity of perishable stock, principally white satin and canvas shoes for women, was damaged by water. Much of the stock of rubber boots and over-shoes was also damaged.

The damage to the stock on the main floor was confined to a slight wetting given the shoes in the front part of the store when a section of hose burst, drenching the floor and boxes on the shelves.

When the hose was finally taken from the building, a foot of water covered the floor of the basement.

No damage whatever was done to the main floor by the fire and the business was resumed Thursday morning as though nothing had happened. The sales force was on duty as usual and an extra number was put to work to handle the business and assist in invoicing the damaged stock in the basement.

It is conservatively estimated that the loss on the stock and fixtures will be about \$1,000, fully covered by insurance.

## FOR AGED PEOPLE

Old Folks Should Be Careful in Their Selection of Regulative Medicine.

We have a safe, dependable, and altogether ideal remedy that is particularly adapted to the requirements of aged people and persons of weak constitutions who suffer from constipation or other bowel disorders. We are so certain that it will relieve these complaints and give absolute satisfaction in every particular that we offer it with our personal guarantee that it shall cost the user nothing if it fails to substantiate our claims. This remedy is called Rexall Orderlies.

Rexall Orderlies, are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness and aiding to restore the bowels to more vigorous and healthy activity. Three sizes, 10c, 25c, and 50c. Sold only at our store—The Rexall Store, Hall's Drug Store, 10 North Side Square.

## DIABETES.

From late figures the hope of recovery under the new emollient treatment seems to be about as follows:

In people of sixty and over results are quite uniform, probably ninety tenths recovering. While at fifty and over a large majority of all cases yield to the treatment, below fifty and approaching forty, the percentage is not high—probably not much over half yielding.

Under thirty the percentage is less and in children recoveries have been very few and most of these were obtained with the aid of skilled physicians forcing nutrition with alkalide treatment to prevent formation of acetones.

The new emollient treatment is known as Bloodine Blood and Kidney Tablets. They can be had in Newark at R. W. Smith's.

We desire every patient to write us who is not noting the usual improvement by the third week. All ways state age. Literature mailed free, and mail orders filled by the Bloodine Corporation, Boston, Mass.

A. W. Thompson, third vice president of the Baltimore and Ohio railroad system has announced the promotion of Charles W. Galloway, general superintendent of the B. and O. S. W. at Cincinnati to the position of general manager of the B. and O., with headquarters at Baltimore. As general manager of the B. and O. lines, Mr. Galloway succeeds Mr. Thompson who was elected third vice president of the system at the meeting of the board of directors held in New York this month.

W. C. Lorce, general manager of the Cincinnati, Hamilton and Dayton railroad also has his jurisdiction extended over the B. and O. S. W., his headquarters remaining in Cincinnati. The appointments became effective April 21.

## The Leonard Refrigerator

Cuts Your Ice Bills in Half

The Leonard is a ten-wall refrigerator, absolutely sanitary. No exposed shelves, wood, flues, waste pipe, and every inside part can be removed for cleaning.

The life of a Leonard is twenty-five years against five years in an ordinary refrigerator. This vast difference in durability is the result of the Leonard moisture-proof interior.

The price you pay today for refrigerator is but a small part of the price you will pay in a lifetime for a refrigerator for ice. It is, therefore, economy to buy the best.

One of a scientific construction and superior insulation—one that is the most economical in use and one that will stand the hardest usage for the greatest number of years. All these features are embodied in the Leonard—both porcelain and enamel lined—all styles and prices.
